### Sporting Gift

With the introduction of the Sporting Gift campaign to raise considerable amounts of equipment for recreation and physical education programs, PSD has built upon an idea from local PE teacher Tempa Hansdah to aid the sporting development of the students at the four schools participating in the Khel Vikas project.

Donations are already arriving just two weeks after the campaign launch and will be appropriated to wherever the equipment is intended.

With some equipment arriving that will support football, cricket, badminton, volleyball and PE programs, it has been a phenomenal start but it is hoped that there is much more to come so that the students can be afforded as many opportunities as can be.

### IDSDP - International Day of Sport for Development and Peace

On April 6<sup>th</sup>, the first annual IDSDP was held globally. To celebrate this event, a volleyball exhibition was held at Kankia School.

The event was held primarily to showcase the girls' volleyball program, their technical development as well as raising the awareness of their effort. They were afforded the opportunity to play an intra-squad match on a competition standard court with high quality equipment and were encouraged by many of the student body including the senior boys' team.

After the showcase, came the senior boys' exhibition match versus the Khel Vikas staff team. After a hard fought match, the senior boys' team prevailed and showcased the skill and the spirit that is beginning to build hopes of success for the coming season.

New Goals Make Handball in PE an  
Exciting New Prospect

### Highlights

Sporting Gift Campaign Kicks Off

Volleyball Exhibition for IDSDP

Koinpur Community Coaching  
Course – Volleyball

### Developing Together
